PRODUCTION PROOF

Rev. 1, 05.03.2023
Artn nr 100038 TPU Mobilecover

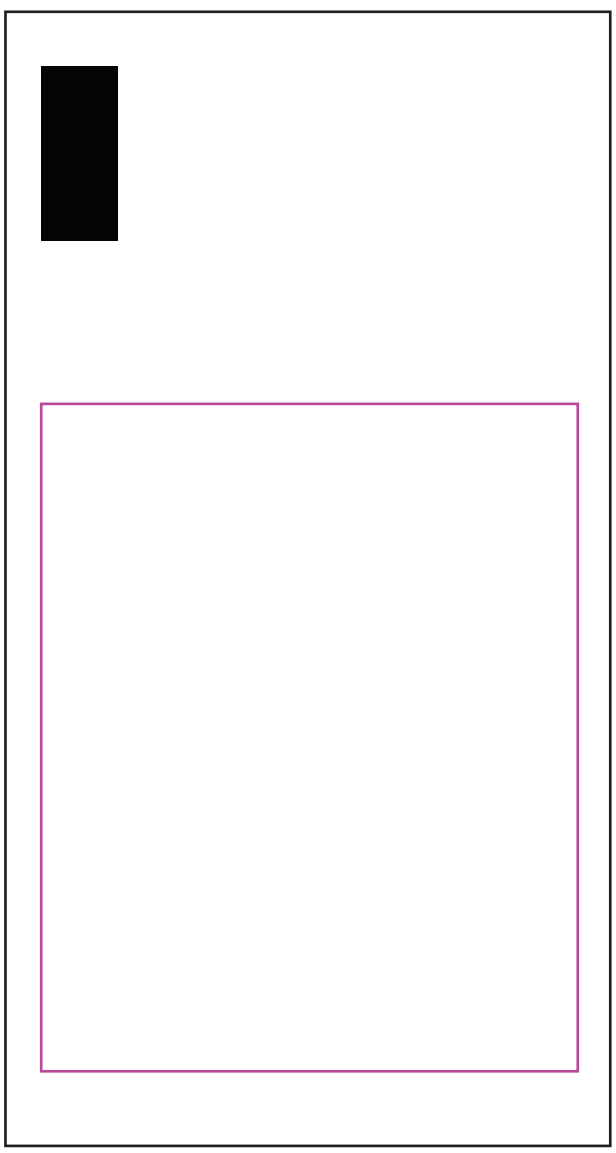
Design tips:
-All phones have different sizes, so the template under is made for a generic size.
-More or less all phones, from launch and 3-5 years back is available cover for.
-Minimum per type and color is 25 pcs.
-Black is available for all phones, other colors on request but for newer phones (few years old) you can be quite sure stdr. colors like "red, blue, white, gray, pink" is available.
-Even if we give the opportunity to be very flexible on colors, please consider not to make it too complicated, for our sake and your own sake. stick to black if possible, but for instance a customer have pink as their main logo color.. requesting pink is well within. However, not give the customer the possibility to make a long list of all kinds of different colors, no need to risk it unless you need to.
-Whole printed will get some blurred out color on the edge, normal with this product.

LOGOPRINTING:

Alternative a: Partial print (included in price)
The cover`s back will be printed with a logo, symbol or text but still keep the original material as background color. This is the choice for consistency in the looks, and if you want to keep it simple.

Alternative b: Whole printed. (also included in price)
Since the proportions, and camera lens hole have different sizes and placement between all phones, you must expect sides or top/bottom to be cut and also since the cameralens hole have different placements and sizes (some are left corner, some are right corner, some are in the middle...) random places will be cut.
We can NOT provide template for each type of cover, so we will crop the graphics to fit.

☐ **PARTIALLY PRINTED**



☐ **WHOLE PRINTED**
